ABOUT ME

I am a Bioinformatics graduate with experience in genome-scale metabolic modeling and microbial community analysis. My skill set includes multi-omics data integration, as well as the application of machine learning and deep learning methods to answer biological questions. I have a particular interest in exploring microbiomes, both in the context of human health and ecological systems, with the goal of uncovering insights that can guide scientific and practical applications.

EDUCATION

Master of Science (MSc) in Bioinformatics 2023 – 2025

Wageningen University & Research, Netherlands

GPA: 8.256 / 10

Courses: Computational Biology, Programming in Python, Advanced Bioinformatics, Advanced Statistics, Molecular System Biology, Machine Learning, Deep Learning

Bachelor of Science (BSc) in Biology 2014 - 2018

Institut Teknologi Bandung, Indonesia

GPA: 3.62 / 4

Courses: Cell & Molecular Biology, Evolution, Synthetic Biology, Molecular Phylogenetics, Genomics & Proteomics, Microbiology

THESIS & INTERNSHIPS

MSc Internship

April – August 2025

Wetsus, Leeuwarden, Netherlands

Project title:

Linking Microbial Community Structure and Composition to Polyhydroxyalkanoate (PHA) Production Potential in Waste-Activated Sludge

Supervisor: Dr. Pieter van Veelen & Dr. JJ (Jasper) Koehorst

Grade: 8.5/10

MSc Thesis

September 2024 – March 2025

System & Synthetic Biology chair group, WUR

Thesis title:

Reconstruction and Analysis of *Flavonifractor plautii* Genome-Scale Model: Unveiling Its Contribution to Short-Chain Fatty Acids Production in the Gut Microbiome

Supervisor: Dr. William T. Scott Jr.

Grade: 8.5/10

BSc Thesis

February – August 2018

Genetics and Molecular Biotechnology chair group, ITB

Thesis title:

Cloning and Sequence Analysis of Chitin Synthase B (CHSB) Gene as an RNAi Target for Nettle Caterpillar Pest Control Method (*Darna trima* Moore & *Setora nitens* Walker)

Supervisor: Dr. Adi Pancoro

Grade: 4 / 4

BSc Internship

July – August 2017

Microbiology Laboratory,

Health Laboratory of West Java Province, Indonesia

Project title:

Microbial analysis on samples from food poisoning case in Bandung, Indonesia

Grade: 3.5 / 4

WORK EXPERIENCE

Quality Assurance Officer

February – June 2023

Production of leather-like material from microbial cellulose

PT Kurva Lonceng Khatulistiwa, Bandung, Indonesia

- Developed and maintained company's documentation including manuals, procedures, and work instructions.
- Ensured the company complied with certification requirements, including B-Corp and BioPreferred USDA.

COVID-19 Testing Laboratory Supervisor

February 2021 – June 2022

PT Kartika Bina Medikatama, Sumbawa, Indonesia

- Oversaw daily laboratory operations, ensuring efficiency and compliance with protocols.
- Mentored and trained Laboratory Analysts, assigning tasks and providing guidance.
- Verified and delivered accurate laboratory analysis reports promptly.

COVID-19 Testing Laboratory Analyst

August 2020 – January 2021

PT Kartika Bina Medikatama, Sumbawa, Indonesia

- Conducted COVID-19 testing, including RNA isolation and RT-PCR, processing up to 300 samples daily.

Molecular Biology and Cell Culture Laboratory Analyst

December 2019 – March 2020

PT Aretha Medika Utama, Bandung, Indonesia

- Ensured the quality and availability of stem cell and microbial culture collections.
- Performed research using ELISA, PCR, flow cytometry, and MIC/MBC analysis.
- Compiled research data and contributed to report writing and scientific publications.

Research Assistant

January – May 2019

Dengue Surveillance Project, School of Life Science and Technology, ITB

- Assisted research activities in monitoring mosquito population dynamics (including samples collection, mosquito rearing & identification, and data analysis)

SKILLS

Programming and tools

Python; R; Bash; Git; Snakemake; Docker; HPC environments; version control systems.

Bioinformatics & data analysis

Omics data analysis; genome-scale metabolic modeling; workflow automation; microbial community analysis; phylogenetics; biostatistics; machine learning; deep learning.

Languages

Bahasa Indonesia (native); English (IELTS 7.5 overall).

Soft skills

Critical thinking and problem-solving; interdisciplinary teamwork; self-motivation; adaptability and eagerness to learn.
