

EUROPEAN
WATER TECH WEEK
LEEUWARDEN
2020

Connecting
Global Water Tech Hubs

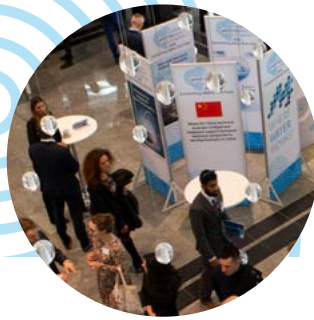

September 21-24,
2020

Leeuwarden
the Netherlands

Europe's most integrated
water technology event;
from science to
international business

Excellence in Innovation
Connecting Global Water Tech Hubs
Congress and Trade Show

From September 21-24, 2020, the global water technology sector will gather in Leeuwarden, United Nations Innovating City for water technology.

During the second European Water Technology Week (EWTW 2020) business and innovation leaders from companies, universities and governments meet and inspire each other in the innovative climate of WaterCampus Leeuwarden. In 2018 the first edition of EWTW attracted over 1000 participants from 38 countries.

EWTW 2020 will, among others, feature the assembly of the Global Water Tech Hub Alliance, the Wetsus Congress 2020, an international business program initiated by Water Alliance and a dedicated trade show. Policy, education, science, valorization, scale-up, business development and export: all aspects of innovation will be integrated in the congress program and the trade show.
